Educational Information	❖ *Actively participated and arranged many meetings, trainings and workshops for the TBAs (Trained Birth Attendants), VHC (Village Health Committee) members etc. ** Also successfully completed all the mandatory online trainings on IFRC Learning Platform DCPS in Health Care Systems Management (<i>Equivalent to Master in Public Health</i>) 2006 – from College of Physicians & Surgeons Pakistan (Karachi) in collaboration with the World Health Organization – GPA 3.01/4.0 (75%) ❖ MBBS (Bachelor of Medicine & Bachelor of Surgery – Basic Medical Qualification) 1996 – 2002 – Ayub Medical College Abbottabad – University of Peshawar – 1187/2000 (59%) ❖ FSC / Intermediate (Equivalent to “A Levels”) 1996 – Cadet College Kohat – Peshawar Board – 805/1100 (79%) ❖ MATRIC / Higher School (Equivalent to “O Levels”) 1994 – Cadet College Kohat – Peshawar Board – 727/850 (85%)
Personal Information <u>(General Considerations)</u>	I am a Muslim and Patthan belonging to Kohat. I got educated from some of the finest institutions of the country. My work experience with the International Organizations at the very start of my professional career has contributed greatly to my attitude and proficiencies towards the profession. I have spent most of my time away from my family and never had any problem living away from my home. I am very well adapted to all sorts of climatic conditions and all sorts of multicultural and multiethnic environments. I carry a disability and therefore, need “prosthesis” (an artificial limb) for walking and moving around but am almost normal with it in terms of my routine commute and work. People who have spent time with me know me as a person Informal in approach, quite straight forward, having healthy habits, rational and consistent in attitude, respectful and reserved in dealings, interested in Reading books, and watching movies & documentaries, also interested in music and discussions, have fair Communication (can proficiently speak and understand English, Urdu, Pashto and Hindko/Saraiki/Punjabi) and Computer Skills (MS Office, Internet, SPSS etc) and well contented with what life offers me. <u>“at this stage of my life I am really looking forward for a position which offers me respect and provides me freedom to apply my knowledge, skills and experience for the achievement of organizational objectives ultimately contributing towards improvement in the lives of people”</u>
