## **SUMMARY OF RELEVANT EXPERIENCE**

---

### **KMU Institute of Medical Sciences (KIMS), Kohat, Pakistan**

Assistant Professor/Associate Professor/Professor (January 2012 till date)

- I have been working in Liaquat Memmorial Teaching Hospital for Women and Children Kohat which is affiliated with KMU Institute of Medical Sciences (KIMS), Kohat, in Pakistan. Working within a busy environment I learnt to manage sick children in stressful situation, using clinical acumen as a main tool of decision making. I have progressively moved up the ladder starting my career as an Assistant Professor then moving up to Associate Professor and now working as a Professor of Pediatrics. I have been:
- Effectively managing and following Patients in Paediatric Department.
- Executing the patients' admissions according to the relevant protocols.
- Working on rotation basis in Nursery and Paediatrics ward.
- Doing daily rounds for the concerned in-patient as per rotation (Nursery, Paediatric wards).
- Providing awareness to the parents on medical condition/treatment of new-born babies, infants and children, including critical condition if any.
- Actively participating in decisions making and finalizing medical treatment plans for in-patients.
- As a responsible pediatrician practicing with most dignified and highly courteous manners.
- Carrying out detailed consultations of patients following hospital's clinical protocols.
- Managing paediatric critical cases like Status Asthmaticus, Status epilepticus, Meningitis, Encephalitis, Shock including septic, anaphylactic and Dengue Shock Syndrome besides management of infectious diseases.
- Providing families of the new-born babies, infants and children, patients with information on their health condition, explaining the treatments required and checking that attendants have understood.
- Working in close collaboration with other departments of the Hospital.
- Following clear diagnosis and treatment in the Hospital Management System.
- Writing departmental guidelines and protocols.
- I am responsible for doing clinical ward rounds, looking after administrative matters of the ward and running of follow-up clinics.

### **Children's Hospital, Pakistan Institute of Medical Sciences, Islamabad, Pakistan**

Specialist Registrar, General Paediatrics (Mar 2007 – Mar 2011)

- Management of admitted Paediatric patients under supervision
- Taking Paediatric Histories, doing Physical Examinations

- Case discussion under supervision
- Participating and preparing Mortality and Morbidity meetings
- Performing in-patient medical procedures like lumbar puncture, intravenous cannulation, nasogastric tube insertions, exchange transfusions, mechanical ventilations including ventilator settings and cardiopulmonary resuscitation
- History taking, Physical Examination of out-patients under supervision

- Management of Neonates in Nursery, including case discussion, passing I/V cannula, blood sampling, exchange transfusions, Endotracheal intubations, and cardiopulmonary resuscitation
- Regularly attended delivery suits and did complete assessment of new-borns under supervision
- Regular visit to operation theatre to assess new-borns, born through caesarean section and their management accordingly.
- As final year Post graduate resident acted as Honorary Registrar of the unit and managed the ward roster.

**Children's Hospital, Pakistan Institute of Medical Sciences, Islamabad, Pakistan**

House Officer, Medicine & Allied and Surgery & Allied (May 2005 -May2006)

- Management of patients admitted to in-patient
- Management of patients in ER
- Management of out-patients including history taking, examinations and drug prescriptions under supervision
- Patient preparation/Case discussion in daily routine round of the department
- Performing in-patient medical procedures like nasogastric tube insertion, urethral catheterization, paracentesis, lumbar puncture.
- Participation in teaching activities of department

**TEACHING EXPERIENCE**

---

My teaching sessions are aimed at multidisciplinary and all levels, including medical students, nurses, midwives and doctors.

- My current teaching focus has been supporting undergraduate students of MBBS by delivering them lectures and teaching them clinical skills. I regularly run sessions for 5-6 candidates, using different teaching methods.
- I have successfully completed course and acquired Certificate in Health Profession Education(CHPE) from Khyber Medical University (KMU).
- I am involved in modular based system of teaching to the undergraduate students and I am also involved in their evaluation in the form of Mcqs and OSCE.
- I have created a teaching feedback Proforma, to continuously improve my teaching skills
